Letters of Thanks from Two Students Receiving Scholarships

September 2019

Dear Valued Customer,

Instead of hearing from ME, I thought that you might like to hear directly from two students who are receiving scholarships, due to the generosity of StS Donors.

The words from Daniela and Jerson are way more eloquent than I could have written. You can HEAR the gratitude in what they have written.

(The letters have been translated from Spanish into English.)

The words below apply to ALL of the folks who contribute to the StS Scholarship program!

Thank You,
Laura Failla Manship
Executive Director
paulandlaura@shouldertoshoulder.org

FROM DANIELA

Dear Donor:

It is a pleasure to greet you and I am hoping that your family and you are in very good health. I wish you success in your daily work.

I am writing to tell you about my progress in my studies. Thank God everything is going very well. Every day, I am learning something new and I am gaining even more interest in my professional career. There have been some problems in the country, we are saddened about what happened in recent days regarding the strikes at schools and universities. I hope this does not affect the development of our classes and continuity of our academic year. However we hope that these problems are solved.

I also take the opportunity to thank you for your unconditional support in my education, I do not have any way to repay you for your support, the only way I can repay your effort is by focusing on my studies and doing my best.

I say goodbye, knowing that God sheds abundant blessings on your home and life.

Fondly,
Daniela

FROM JERSON:

To My Sponsor:

At this time, I am pleased to write to you and on behalf of my whole family, to express the most sincere and infinite gratitude for this enormous gesture of selfless support of you towards me. For a while, I saw my dream at risk due to many limitations, not only for me, but for many people who want and feel the desire to pursue a university career and who for economic reasons cannot achieve their dream. For this reason I express my immense gratitude that overwhelms me for helping me fulfill my greatest longing.

These words really fall short to express what you are doing for me and for other people and I have nothing left but to wish you successes and blessings in each activity that you carry out. I am sure and I fully trust that all powerful God will know how to reward you for your great altruistic work.

Thank you very much....
Jerson
